Subject: Product and Payment integration with NEAT Portal - Reg.
To: NEAT Support <neatsupport@aicte-india.org>

Dear EduTech Company,

If you have any product related to B2B, you **do not** need to integrate the payment gateway integration mechanism of your product with NEAT platform.

Based on the discussions held during the interaction, we all agreed to the following:

Step 1: Student can access product (course) description page through NEAT portal or Ed-Tech portal. Thank you for mutual agreement.
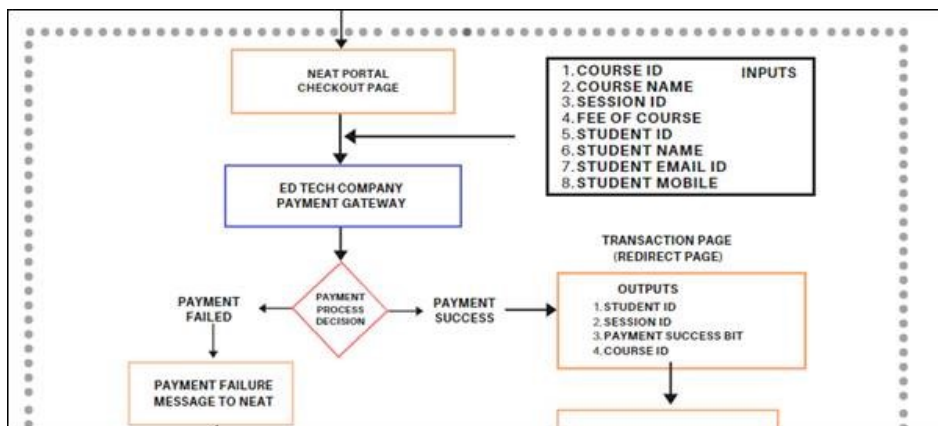

Step 2: Students will be diverted to the Ed-Tech payment gateway by passing parameters to Ed-Tech company url.

E.g. http://EdTechcompany.com/NEATstudent.php?courseid=1&coursename=java&sessionid=xyz123&fee=123&studentid=abc34&studentname=aaa&email=abc@gmail.com&mobile=1234567890

After payment process, the Ed-Tech company will pass parameters for the payment as either success or failure e.g.

https://neat.aicte-india.org/NEATstudentresponse.php?studentid=abc34&sessionid=xyz123&payment=1&courseid=1&Success=1
https://neat.aicte-india.org/NEATstudentresponse.php?studentid=abc34&sessionid=xyz123&payment=1&courseid=1&Failure=1

Thank you for your acceptance of the payment processing parameters.

Please try to complete the integration process by the end of this week.

For any clarification please call Mr. Deepanshu on 9501314694 between 9:00 AM to 5:00 PM.

Regards,

NEAT Team, AICTE
